

Inception Meeting
OneImpact Community-led Monitoring
in Country X

Date:

Venue:

Event: Workshop

Background

To find and treat all people with TB and to achieve the World Health Organization (WHO) End TB Strategy¹ targets countries must abandon the passive, top-down disease programmes of the past and adopt a radical new approach. According to the Stop TB Partnership (STP) and as articulated in the Global Plan to End TB this approach should strive for equity and address the structural, social, socioeconomic, human rights, (R) and gender (G) drivers of the disease and ensure the meaningful engagement of empowered people and affected communities (C) in the TB response. This Community, Rights and Gender (CRG) approach aligns with the *WHO End TB Strategy* that promotes the protection and promotion of human rights, ethics and equity and the latest articulation of a rights-based approach to TB in the UN Political Declaration on TB and subsequent progress reports, including *A Deadly Divide; TB Commitments Vs TB Realities*.

Community-led monitoring (CLM) is an important element of a CRG approach to TB. To support national CLM efforts Stop TB Partnership developed a CLM conceptual and implementation framework and digital platform to enhance it. It is called OneImpact CLM.

OneImpact CLM empowers people affected by TB to access health and support services, claim their rights, and identify and reduce stigma. Through an innovative mobile application, OneImpact CLM encourages and facilitates the participation of people affected by TB in all aspects of TB programming to activate a human rights-based, people-centered response. In doing so, OneImpact CLM combats the central challenges in the TB response at the individual and community levels, while generating essential information in the form of digital data to better understand and combat them at the programmatic level, to end TB.

OneImpact Conceptual and Implementation Framework and Digital Platform were developed in collaboration and partnership with Stop TB Partnership Tajikistan, Eastern Africa National Networks of AIDS and Health Service Organizations (EANNASO) Tanzania, Khmer HIV/AIDS NGO Alliance (KHANA) Cambodia, Lembaga Kesehatan Nahdlatul Ulama (LKNU) Indonesia, TBpeople Ukraine, Associacao Mocambicana para a Ajuda de Desenvolvimento de Povo para Povo (ADPP) Mozambique, Club des Amis Damien (CAD) DR Congo, TBpeople Ukraine, Copperbelt Health Education Project (CHEP) Zambia, African Coalition on TB (ACT), Activists Coalition on TB, Asia Pacific (ACT! AP) hosted by APCASO, TBpeople, Global Coalition of TB Activists (GCTA), Dynamique de la Réponse d'Afrique Francophone contre la Tuberculose (DRAF TB), Treatment Action Group (TAG) USA.

¹ World Health Organization: End TB Strategy

Throughout 2018-2020 14 countries, with the support of Stop TB Partnership pilot tested OnelImpact and are currently expanding upon OnelImpact CLM with support from Global Fund to Fight AIDS, Tuberculosis and Malaria, USAID, CDC among others.

Convenor

Lead community organization and NTP

Objectives

1. To orient participants to the concept of OnelImpact CLM and its contribution to the End TB strategy and the UN Political Declaration on TB targets and commitments.
2. To present and discuss the results of the OnelImpact CLM needs and feasibility assessment, as well as legal landscape assessment.
3. To demonstrate OnelImpact platform.
4. To commence the adaptation of OnelImpact with people affected by TB leading the process.
5. To seek consensus on the OnelImpact Action Plan, including project indicators, how data will be responded to local, community and programmatic levels.

Output

1. OnelImpact Action Plan (finalized)

Attendance

The workshop is being attended by those identified in the needs and feasibility assessment as strategic partners.

Agenda Template / Example
Workshop Day 1
Date

Starts	Ends	Session	Presenters	Objectives	Session Type
09:30	10:00	Registration & Coffee			
10:00	10:15	Welcome remarks, introductions and workshop objectives		People get to know each other, their interest in the CLM initiative and their potential role in it.	
10:15	11:00	Overview of community-based monitoring and STP OneImpact Q&A		Alignment is drawn between CLM and the UN Political Declaration, End TB Strategy, Global Plan to End TB and the Global Fund Investing to End the Epidemics Strategy	
11:00	12:00	Outcome of Needs and Feasibility Assessment			
12:00	13:00	Lunch			
13:00	14:00	Demonstration of OneImpact Q&A		Participants learn about and test the capabilities of OneImpact	Live Demo
14:00	15:00	Identification of TB Challenges by people affected by TB		People affected by TB identify the main CLM indicators that should be monitored	
15:00	16:00	Feedback from all stakeholders on App content, features and capabilities		Participants inform the development and design and of their own OneImpact platform	

Inception Meeting Day 2

Date

Starts	Ends	Session	Presenters	Objective(s)	Session Type
09:30	10:00	Coffee			
10:00	10:30	Recap			
10:30	11:30	OneImpact adapted		Participants see how their feedback from day 1 has been incorporated, demonstrating the commencement of the adaptation process and country and community ownership of OneImpact and provide additional feedback	
11:30	13:00	Lunch			
13:00	16:00	OneImpact Action Plan		To present OneImpact Action Plan, solicit feedback and update each component of the Action Plan based on group discussion.
